Temporary Competition Number (TCN) A Temporary Competition Number (TCN) allows dogs to temporarily participate in CKC events while they pursue permanent registration or an Event Registration Number (ERN).
A TCN must be obtained before submitting an entry for an event.
The same TCN must be used for all event entries for a dog until the dog is permanently registered or has an ERN.
TCNs can be obtained through your CKC member portal or by contacting the CKC.
Note: There is no CKC fee to obtain a TCN. However, a TCN 'listing' fee is required each time a dog with only a TCN is entered in an event.

Event Registration Number (ERN) All dogs that are foreign born and foreign owned and enter Canada for the sole purpose of entering CKC events, and do not have a CKC registration number, will require an Event Registration Number (ERN).
The ERN number MUST be applied for within 30 days of the first day of entering a CKC event.
Fee is \$64.00 per dog, plus applicable taxes.

Non-Member Participation Fee Effective January 1, 2011:

- a) A non-member participation fee will be charged to a resident of Canada who is a non-member of the CKC. The fee will be \$170.00 plus applicable taxes.
- b) The non-member participation fee is paid in any year a title is earned and covers all titles and dogs owned by that individual.
- c) In order for the title to be awarded, the non-member will have a choice to either become a CKC member or pay the non-member participation fee. Failure to comply within 30 days of notification will result in the title being withheld and the dog cannot be moved up to the next level.
- d) The fee applies only to dogs wholly owned by non-member residents of Canada and is not applicable to CKC members.

CKC Membership **\$54.00**, plus applicable taxes. For a list of membership benefits and an application to join, visit ckc.ca.

Section 4.7.1 of the Conformation Show Rules and Regulations states: A judge officiating at a show held under these rules shall not be subjected to indignities of any kind during the progress of the show. It shall be the duty and obligation of the club holding the show to see that this rule is effectively carried out.

Moving Class Dog to Specials Only

Section 8.9 of the Conformation Show Rules and Regulations has been amended to allow a dog which is individually registered in the records of the Canadian Kennel Club, and has completed the requirements for a Championship, after the Closing Date for entries for a show, may be transferred from one of the Regular Classes to "Specials Only," providing the request for a transfer is submitted to the Show Secretary in WRITING at least one hour prior to the judging of your breed by the owner or handler. ***A dog that has a Temporary Competition Number (TCN) is not eligible to be transferred from one (1) of the regular classes to Specials Only.***

When one or more all-breed and/or specialty shows are held on the same day, in the same venue, the request for moving of class dogs to Specials Only must be made a minimum of one (1) hour prior to the breed judging scheduled start of the show for which the dog is being moved up to Specials Only.

Moving from Specials Back to the Classes

Section 8.10.5 A dog can be moved back into the classes from a Special if it has been entered incorrectly, only where the shows have already closed.

2. Has recovered from distemper, parvovirus, kennel cough or other communicable disease within the last 30 days (prior to the event);
3. Has been housed within 30 days prior to the event on premises on which there existed distemper, parvovirus, kennel cough or other communicable disease.

SPACE IS LIMITED, LAST CLINIC FILLED QUICKLY, DON'T MISS OUT!

The Examination

1. A short health survey regarding the dog's breathing history.
2. A brief physical exam while the dog is calm including auscultation where the assessor listens to the dog's breathing with a stethoscope gently positioned on the side of the neck. This establishes a baseline for any clinical signs of BOAS.
3. A short exercise testing consisting of a brisk three-minute walk. This is designed to expose clinical signs of the disease in an otherwise calm and asymptomatic dog. It is not designed to assess cardiovascular fitness.
4. A post exercise auscultation after increased airway activity to compare to the pre-exercise baseline.

RFG Scheme Screening

The noise the trained veterinarians are listening for during auscultation include:

- **Stertor** - a low pitched vibrational noise heard above the level of the larynx
- **Stridor** - higher pitched 'sawing' noise heard over the larynx
- **Nasal sterotor** - low pitched nasal snort/vibration
- **Nasal stridor** - high pitched nasal whistle, usually on breathing in

RFG Scheme - What Does the Grading Mean?

The Respiratory Function Grading Scheme (RFGS) utilizes a sliding scale of 0 to 3 to objectively diagnosis BOAS:

- **Grade 0** - the dog is clinically unaffected and free of respiratory signs of BOAS (no evidence of disease, no BOAS related noise heard even with a stethoscope)
- **Grade 1** - the dog is clinically unaffected but have mild respiratory signs linked to BOAS (noise is mild and only audible with a stethoscope)
- **Grade 2** - the dog is clinically affected and has moderate respiratory signs of BOAS (noise is audible even without a stethoscope)
- **Grade 3** - the dog is clinically affected and has severe respiratory signs of BOAS (noise is audible even without a stethoscope)

Publication of Results

Grade 0 and Grade 1 - are considered clinically normal and BOAS unaffected as they exercise without difficulty and do not appear to have any clinical signs related to airway obstruction.

Clinically normal dogs (**Grade 0 and 1**) **will receive OFA certificate numbers, and their results will be posted on the OFA website.**

Grade 2 and Grade 3 - when sterotor or stridor noise is heard without a stethoscope, whether intermittent or continuous, these dogs are considered affected with clinical signs affecting their quality or life.

Grade 2 or 3 results will only be posted on the OFA website if their owners authorize release of abnormal data.

BOAS Breeding Recommendations

Using the RFG Scheme grades are the guidelines in the chart, concerned responsible breeders can apply the selective genetic pressure to reduce the chances of producing puppies affected by BOAS.

However, since the inheritance of BOAS is not fully understood and is not entirely predictable, this guideline cannot guarantee that all puppies from unaffected parents will be free of BOAS.

Ultimately, responsible breeders use the RFG Scheme to screen their breeding stock and include the results in their selection criteria.

		DOG ONE (sire or dam)			
		Grade 0	Grade 1	Grade 2	Grade 3
DOG TWO (sire or dam)	RFG Grade for each dog				
	Grade 0	Green	Green	Green	Red
	Grade 1	Green	Green	Green	Red
	Grade 2	Green	Green	Yellow	Red
Grade 3	Red	Red	Red	Red	

- Green** - These mating combinations have the lowest risk of producing puppies effected by BOAS
- Yellow** - A Grade 2 or 3 mating will increase th risk of producing puppies affected by BOAS
- Red** - These mating combinations have a high risk of producing puppies affected by BOAS and are not recommended
